CICP Is Working

Since CICP began in 1996, over \$12.5 million in losses have been reported to us. During that same period we have participated in recoveries of \$3,772,501.

CICP Honors Law Enforcement and Contractors

CICP honored law enforcement officials a recycler and a contractor at its 15th Anniversary Awards Luncheon.

A Law Enforcement Award was presented to Detective Mark Georgioff of the Portland Police Bureau. Georgioff led the investigation of Michael Pavlicek, who stole an estimated \$750,000 worth of tools and material from the construction industry. Owners of about half of these items have been identified. Georgioff's work also resulted in a 10 year prison term and stipulated restitution for Pavlicek.

A Law Enforcement Award was also presented to Detective Bill Orsborn of the Pullman, Washington Police Department. Orsborn led an investigation involving multiple crimes against the construction industry and other businesses from many jurisdictions. Orsborn's work resulted in the conviction of Paul Bickle who is now serving prison time in Whitman County jail. Because Orsborn so willingly shared information with law enforcement officials in other jurisdictions, Bickle will soon be on many other court dockets.

Detective Johann Schneider of the Eugene Police Department joined CICP staff to present the 2011 Law Enforcement Partner Award to Schnitzer Steel, Eugene operation. Schneider nominated the Eugene operation of Schnitzer Steel for their cooperation with law enforcement in fighting metal theft, especially in the construction industry. Dock workers at Schnitzer

have Schneider's cell number and call him when suspicious material comes in. Schneider has been able to make several cases as a result of the cooperation and partnership with Schnitzer Steel.

The prestigious 2011 CICP Padlock Award was presented to Martin Cloe of Andersen Construction. Andersen Construction includes theft and vandalism in the pre planning stages of jobs. Subcontractors at the Andersen Construction sites of Kaiser Westside Medical Center, Providence Bethany and Linus Pauling Hall at OSU all participate in the CICP program. Workers receive training and education about theft prevention at all hands meetings. Law enforcement officials have joined Andersen management and CICP staff to conduct site security walk throughs. Jobsite are posted with CICP reward signs and reward flyers have been distributed in the neighborhoods around the site engaging them in their theft prevention activity. As a result, over the past two years, no thefts have been reported at any of these Andersen jobsites.
