### CONSTRUCTION CRIMES-

### HEAVY EQUIPMENT THEFT- METALS THEFT

Identifying Problems - Finding Solutions for Law Enforcement & Industry

Wednesday, January 16, 2008 12:30 PM – 4:30 PM

Council Chambers, on the 7th floor- Renton City Hall

1055 S Grady Way, Renton, WA 98057

Renton Police Department Crime Prevention Unit, The Construction Industry Crime Prevention Program of the Pacific Northwest (CICP) and The National Equipment Register (NER) present a **FREE**, in-depth seminar for area Law Enforcement and industry personnel on the related subjects of heavy equipment and metals (scrap) theft, and construction related criminal activity in the Pacific Northwest and nationally.

The seminar will provide a fundamental examination of these issues and discuss the many resources available to address them for contractors, equipment owners, and Law Enforcement

For Law Enforcement, the seminar will address:

- Detailed discussion of past/current machine & metals identification trends
- Stolen machine and material recognition, including new case studies
- Overcoming the barriers inherent to equipment investigations
- Increasing issue awareness and improving reporting
- Communicating with industry effectively

For the Industry, the seminar will address:

- Job Site, Dealership and Rental Yard Security Issues
- Proactive measures to reduce risk on both equipment and metals
- Recognizing criminal activity within the industry
- Understanding the new legislation on metals crimes
- Resources available for crime prevention
- Communicating with Law Enforcement effectively

Registration is required for this **FREE** Event- Contact NER at 866-663-7872, or by email at [Dmossman@nerusa.com](mailto:Dmossman@nerusa.com) with your full name, company or agency, phone and email.
